ODI PEARL

I build front-end interfaces that are clean, functional, and easy to use. I take designs from Figma and bring them to life, making sure they actually feel good to use. I enjoy experimenting with animations, layouts, and small details that make a difference. Basically, I like making apps that are both pretty and practical.

Work Experience

Abitto Global (Intern)
2022 - 2023
- Contributed to the development of an internal accounting application, improving financial reporting workflows and increasing operational efficiency by 20%.
- Maintained and optimized website content to ensure accuracy, consistency, and alignment with business requirements.

Ownage Fiditech (Intern)
2023 - 2024
- Collaborated with the Frontend Lead to develop and deploy multiple websites and web applications, implementing responsive user interfaces and integrating backend APIs to deliver functional, end-to-end features used across company projects.
- Improved development efficiency and product reliability by contributing clean, reusable frontend components, fixing UI issues, and ensuring seamless frontend-backend communication, supporting faster feature delivery and better user experience.

Aya Labs
2024 - 2025
- Contributed to the development of Aya Labs' dashboard and supporting web applications, building responsive, user-focused interfaces for internal and customer-facing platforms.
- Collaborated with cross-functional teams to implement frontend features, integrate backend services, and improve usability across multiple sub-websites, supporting smoother workflows and reliable product delivery.

Toks Net
2024 - 2025
- Led frontend development for web and mobile applications, delivering multiple websites and products from concept to production.
- Mentored and trained interns in web and mobile development, improving team productivity and code quality.
- Established frontend best practices and reusable components, improving maintainability and reducing development time across projects.

Educational Background
Accounting
University of Portharcourt

Core Competencies
- Problem Solving & Debugging
- Frontend Architecture
- API Integration (REST & GraphQL)
- Responsive & Mobile-First Design
- Performance Optimization
- Cross-Team Collaboration
- Mentorship & Technical Leadership
- Agile / Scrum Development
